

IMPERMASHIELD DB3 / DB5 / DB10

7 FLUID APPLIED | Membrane Waterproofing

DESCRIPTION

Impermashield DB is a user friendly synthetic protection board that is a great alternative to fiberglass. Impermashield DB is more durable than fiberglass and provides excellent drainage. Impermashield DB is also the only protection board providing R-Value that contains 70% post-consumer recycle content. Our environmentally friendly drainage board will not irritate your skin and is easy to work with. Impermashield DB is designed to be used with spray applied waterproofing and when used with Impermashield's waterproofing membrane, it provides a great system of protection for many years to come. Contact Distrocan, Inc. today for more information on how to go GREEN with Impermashield.

PRODUCT ADVANTAGES

- No more itching
- More durable than fiberglass
- Flexible, bends easily
- Environmentally friendly, 70% post-consumer recyclable
